

Mission Statement

Our mission is to produce and market world-class quality products to our customers at the most competitive price.

We shall be leader in our industry by continually improving the quality of our products. This will be accomplished through Research & Development, attention to detail, effective teamwork, and technological excellence. Product availability to customers will be assured through improved and expanding distribution and sales networks. Affordability and on-time delivery of our products will be maintained through effective cost control and productivity.

Human resources are our most valuable asset. We shall provide our employees with an environment conducive to their personal and professional development and with opportunities for growth within our organisation. In maximising the capabilities of our staff, we will ensure the successful attainment of our Company goals.

We are committed to helping protect the environment by actively responding to environmental concerns at all times within a framework that balances economic and social considerations.

Dr Richard Salisbury MBBS MRCP, Managing Director
